

ID06 cards for asylum seekers with LMA cards.

Asylum seekers with LMA cards who are employed or gain internship at company - Only ID06 card 1.5 for asylum seekers when no passport is available for ID06 scanning control.

A company or organisation, e.g. government or municipal agency, that wishes to order an ID06 card for an individual with an LMA card that is going to perform practice at the company should do it in its own company name and organization number through its own ID06 account.

- For asylum seekers with LMA cards, ID06 card 2.0 cannot be ordered if the identity cannot be secured with a passport unless it is available for required passport scanning. Asylum seekers without the possibility of having their identity secured via passport scanning will instead be able to get an ID06 card 1.5 issued.
- There is no exact date for when 1.5 ID06 cards can be registered for asylum seekers, but it will be possible to implement during the fall of 2019, until it is clear that the old ID06 card 1.0 will of course apply for the asylum seekers with LMA-card.

When ordering an ID06 card to a person with an LMA card, the applicant company must attach to the accredited ID06 card supplier digitally:

- When hiring: * Photo on the LMA card and a copy of the employment contract. It must also be stated on the LMA card at point 7 "AT-UND", which confirms that the asylum seeker has the right to work during the asylum period.
- At an internship: * Photo on the LMA card and a copy of the internship agreement established between the municipality or employment agency and the company. AT-UND does not need to be indicated on the LMA card at the internship.

The individual's identification number is the unique LMA card number, see example below which has the card number 50-008920/4. The number, marked in red in picture 1, is a unique identifier for the individual. Observe that the last digit, 4, is only a numbering of the physical LMA card that the applicant has received and can vary when a new LMA card has been issued for the individual. The LMA number 50-008920, as in the picture, is unique for the individual. The individual's nationality shall correspond with the language the individual is speaking, e.g. if it is written Turkish in paragraph six on the LMA card, then the individual shall be stated with Turkish nationality.

The LMA card and the employment contract or the practice agreement shall together with the ID06 card, be presented when asked for during work place introductions, controls and audits.

The validity of the ID06 card shall be equal to the validity period in the employment or practice agreement, alternatively to the validity of the LMA card. The document which has the shortest validity shall be applied when determining the validity of the ID06 card.

* Please note that photocopies must have adequate sharpness. Blurred photocopies that are without sharpness are not accepted.
