

ID06 card LMA for 1. asylum seekers and 2. track changer

1. ID06 card LMA can be ordered for asylum seekers with LMA cards who are employed or gain internship at company

A company or organisation, e.g. government or municipal agency, that wishes to order an ID06 card LMA for an individual with an LMA card that is going to perform practice at the company should do it in its own company name and organization number through its own ID06 account.

When ordering an ID06 card LMA

When ordering ID06 card LMA to ID06 card supplier, the applicant company must digitally attach:

When hiring:

Photocopy on the LMA card with AT-UND indicated in the QR code.

Copy of the employment contract

Copy of passport certified by an official of the Migration agency.

The LMA cards have a QR code that allows anyone with access to a QR reader to easily check whether the card is valid or if you have the right to work (AT-UND).

At an internship:

Photocopy on the LMA. AT-UND does not need to be entered in the LMA card's QR code at the internship.

Copy of the internship agreement established between the municipality or employment agency and the company.

The asylum seeker may then go to one of the ID06 partners SISTEC's dispatch offices to check and ensure the authenticity of the LMA card and “when hiring” the copy of passport certified by an official of the Migration agency.

The validity of the ID06 card shall be equal to the validity period in the employment or practice agreement, alternatively to the validity of the LMA card. The document which has the shortest validity shall be applied when determining the validity of the ID06 card.

2. The Swedish Parliament has decided to abolish the possibility of changing tracks.

The Swedish Parliament's decision to end the possibility of changing tracks has no transitional rules. This means that the Swedish Migration Agency will make decisions according to the new regulations from 1 April 2025, regardless of when you applied for a residence permit on the basis of work.

The abolition of track changes means that it is no longer possible to apply for an extension of existing permits.

If you have already been granted a residence permit on the basis of work through a change of track, you may continue to work in Sweden as long as your permit is valid, but from 1 April you will not be able to get an extended residence permit on the basis of work.
